EDUCATION

LNCT BHOPAL

Bachelor of Technology in Computer Science Engineering

Sep. 2023 – May 2027

Bhopal, M.P.

RELEVANT COURSEWORK

- Data Structures
- OOP
- Database Management
- Basics of OS
- Basics of CN

PROJECTS

FrameRate: AI-Assisted Movie Discovery Platform

React, JavaScript, TMDB API, Prompt Engineering

- Architected and deployed a responsive movie discovery web application by leveraging structured LLM prompt engineering and AI-native workflows.
- Supervised and validated AI-generated React components and JavaScript logic to integrate real-time JSON data from the TMDB API.
- Applied first-principles troubleshooting to review, debug, and refine LLM output, ensuring functional component hierarchy, dynamic content retrieval, and responsive UI design across devices.
- Established reusable frontend layouts for movie details pages displaying ratings, metadata, and overviews.

Personal Portfolio Website

HTML, CSS, Git, Netlify

- Designed and hand-coded a responsive personal portfolio website to showcase academic projects and technical skills.
- Utilized Git command-line tools for version control, repository management, and continuous deployment via Netlify.

TECHNICAL SKILLS

Languages: Java, C++, Javascript, HTML, CSS

AI-Native Engineering: Prompt & Context Engineering, LLM-Assisted Prototyping

Tools & Platforms: Git, GitHub, VS Code, Netlify, RESTful APIs (TMDB API), React

ACHIEVEMENTS & PROBLEM SOLVING

First Runner-up

CodeBeta College-Level Coding Competition (2024)

- Competed against 150+ participants, demonstrating solid problem solving and first-principles thinking using core programming fundamentals.

EXTRACURRICULAR

Founder

Undefined Films

- Led a small creative team at Undefined Films, managing short film production from initial scriptwriting and planning through filming and final editing.
- Wrote detailed scripts, shooting schedules, and scene breakdowns, translating creative concepts into clear, organized tasks for crew members.
